

Dear guests,

We would like to invite you to try our program for face care and body therapies with using products and techniques developed by the French Institute **THALASPA**.

Preparations used in these programs are based on marine algae, mud and minerals extracted from province of Brittany. The main active components are micronized algae (Laminaria, Fucus, Litotamniya) and deep sea clay, which normalize the metabolism, restore skin tone and provide lifting effect.

Rejuvenating lifting program for atonic skin directed to slowing the skin aging process. Eliminates the signs of stress and weariness, stimulates cell regeneration, has a strong lifting and rejuvenating effect.

Modelling Figure Programme has anti-cellulite effect and an impact on fatty tissues, eliminates fluid retention, cleanse the body of toxins. Also contributes to weight loss and gives the skin firmness and elasticity.

During the modeling program we recommend **collagen facial mask** for all skin types. The mask has anti-inflammatory and moisturizing effect.
